

# Rip The Night Away

Kottonmouth Kings

If it ain't natural, then it ain't real  
Oh we gonna' be kickin' tonight  
We gonna' be sipping tonight  
Ripping the night away (rip the night away)  
Oh, when the time is right  
Another full moon light  
We rip the night away (rip the night away)

If this was the last joint, that we ever rolled up tight,  
I'd want to be with good friends, underneath that open sky,  
Play some mellow music, throw our dreams into the fire,  
Release all the demons, and our souls are uprising

There's nothing in the world like some good times and good vibes  
Surrounded with your friends and your family by your side  
All the time you spent together going out havin' fun  
Doin' the things you do, this life style's got us on the run  
Life's too precious every moment make it count  
Some days you're on the top some days you're down and out  
This life's a gift, I'm gonna shine my light  
So sit back, relax, get high, with us and kick it with us tonight

(Rip the night away)  
Burning, burning, burning  
(Rip the night away)  
Burning, burning, burning  
(Rip the night away)  
Burning, the night away

Take me to the mountain high, where I can smoke a bowl in peace  
while I drive  
I'm on a back road with my sunroof open, on the way to meet the  
friends, we'll gather and tokin',  
and we build a fire and chill for the night, catch up on old times  
over a few bud lights,  
we just sit and laugh while reminisce 'bout the best days of our  
lives and we be the ones blazin'
