Kottonmouth Kings

sometimes life is a game, and you gotta take some chances,  
we all got choices to make, every action has a reaction,  
and when your backs against the wall you can duck or cover  
or your could come out blastin

(Richter)

Now you don't know what you in for  
You don't know what you getting in too till you rich too  
And you still got ten in the back room  
Plus you got another five out to hurt you  
And the moneys comin' up kinda short now  
It's like your in a horse race ridin' a fuckin' cow  
When business dries up and goes slow motion

with some big fish, I hope you feelin' lucky,  
cause yous a guppy, swimmin' with a fuckin' shark,

So go and play hard till some one pulls your card  
What you in for, tell me what you in for  
Put your money on the table time to lay your guts down  
what you in for tell me what you in for  
Yeah, we makin' other scales rollin' up some major pounds  
what you in for, tell me what you in for Put your money on the  
table time to lay your guts down  
what you in for tell me what you in for
