

## Waking Dream

Kottonmouth Kings

The earth the wind the sky the sea the birth the life the air we breathe- The truth  
the lies the in between the hate the love the waking dream

All these beautiful things growin up in California and all the members from the people who new  
ya! Don't test Mother Nature she's a powerful person  
Don't get caught up in a bind for bein stupid like abortion  
These are the types of checks you can't cash when your trying to  
o live long can't afford to be  
an ass or when you walk into a party being loud and obnoxious or  
r when you walk up to a hotty  
wish no respect and compliments it's fuckin nonsense this life's  
s a journey all people I need and  
al the people actin funny like crash test dummy's people come people  
go like liquor store they  
except it like a treasure some one pain is another man's pleasure  
re  
We need to stick together to make this beautiful place better  
You're times approachin in this like your livin in the aftermath  
h of the new begin

In the aftermath the new beginning- In the waking dream of all  
things unseen the cycle is  
complete the universe has justified my life and set me free- A  
smile spreads across my face  
prepares me for the ride- the setting sun begins to set the perfect  
way to die

The earth the wind the sky the sea the birth the life the air we breathe- The truth the lies  
the in between the hate the love the waking dream

I'm sittin in the basement, cause we about to get deep  
Final life's placement, bein the topic of speech  
What matters to you and me, what goals you've reached  
When you're body's laid to rest and your soul's free to seek  
With the knowledge you receive, You got a spot picked out  
You know where you wanna go from what you've learned about  
Some people call it Heaven, other's say the spirit world  
Where you goin when you die? Are you sure? For real?  
You ask me where I'm headed, I'm still tryin to look  
I learned one thing so far, the answer's not in a book  
Many paths to choose from written by the hands of man  
But they were all still alive, the information's second-hand  
I don't understand, cause all religion's have flaws  
Barkin out commandments, how 'bout Nature's laws?  
Cause when it's said and done, rivers still gonna flow

The wind's gonna blow, and trees are still gonna grow

In the aftermath the new beginning- In the waking dream of all  
things unseen the cycle is  
complete the universe has justified my life and set me free- A  
smile spreads across my face  
prepares me for the ride- the setting sun begins to set the per  
fect way to die

The earth the wind the sky the sea the birth the life the air w  
e breathe- The truth the lies  
the in between the hate the love the waking dream
