

## Whats Your Trip?

Kottonmouth Kings

Some people like to lick it  
Others crack a sack, blaze it up and kick it  
Some like to think with a drink their hand  
It all depends on the ends that you're willing to spend  
What's your trip?  
I need another lick, I need another lick  
What's your trip?  
I need another lick, I need another lick

As I flow let the shit seep deep into your ear drums  
Alien fly ass rhymes as you hear them  
Peep this sound it's from the darker side of the planet  
A little tab of paper and I'll walk the planet  
The events about to happen in the next few hours  
I've entered a world with billions of flowers  
Pixies all dancing all around my head  
Chillin' to the melodies of the Grateful Dead  
The walls get wavy and melt like gravy  
I ask myself is there something there to save me?  
Oh, oh, oh, oh shit what the fuck have I done?  
A little tab of paper that I put on my tongue  
Now the demons are coming from above and beyond  
And while they're stabbing at my face with their brains every bones  
I ask myself is it worth it to lick?  
I guess I'm undecided  
So fool what's your trip?

I need another rip, I need another rip  
What's your trip?  
I need another rip, I need another rip  
Some people like to lick it  
Others crack a sack, blaze it up and kick it  
Some like to think with a drink in their hand  
It all depends on that ends that you're willing to spend  
What's your trip?

Do I lick or do I sip?  
None of the above cause I just take rips  
From a pipe, sometimes a bong  
Yes I smoke, cause it feels damn good when it lingers in my lungs  
I'm a ganja man, I like a J in my hand  
At all times burning so my high never lands  
I'ma get you soooo high, that's what 'I'm sayin'  
When it comes to smokin, man I'm never playin'  
Just steady blazin', it's amazin how I'm hazin'  
They never perpetrate and with the highs I'm elevating  
You we skatin' when I get a board  
But when I bust an ollie off my ear falls a joint  
And then I pick it up, and then I spark it up  
And then I smoke it to the head until I'm lifted up  
No I can't deny Chinese eyed until the day that I die  
I take rips, so bitch what's your trip?

I need another sip, I need another sip  
What's your trip?  
I need another sip, I need another sip  
Some people like to lick it,

Others crack a sack blaze it up and kick it  
Some like to think with a drink in their hand  
It all depends on the ends that you're willing to spend  
What's your trip?

You wanna know my trip?  
We wanna know your trip  
You wanna take a lick?  
You wanna take a lick  
You wanna take a rip of my trip?  
Then just sit and sip on some gin to get me on tip  
On point, I need a joint when I'm drinkin'  
Yes I'm seekin for a 40 to get my buzz peakin'  
Now I'm leakin all over my shoe  
What you wanna do get another 502?  
You shoulda ate some food  
Instead of drinkin' on an empty stomach  
Just don't talk cause my buzz is gettin' kinda chronic  
Playa hold it, here comes another stage  
Well this is why I say not to drink while you rage  
Head spins, what the fucks goin on?  
Head spins, you need to stick to your bong  
Well now I'm face first, hands clenching on the dirt(slang)  
My head's on spin, about to fall off on the earth  
My mouth starts to water, X says "Puke it out"  
Fuck that shit, man that ain't what I'm about  
My eye starts to tear but that puke i would fear  
Pass the malt liquor, gimme another beer  
Yo yeah man that's my motherfuckin' dog  
SAINT DOG

Some people like to lick it,  
Others crack a sack blaze it up and kick it  
Some like to think with a drink in their hand  
It all depends on the ends that you're willing to spend  
What's your trip? Motherfucker
