## **Eternal**

## Krabathor

Sky is full of terror Full of life and death How much pain stand I? Cruelty crush my heart

Horizon is in a cramp In the psychic ruin I'm torment, but don't kneel I'm in the nest of worms

Eternal

Remember for all For all dirty whiles Remember for all And then I will strong

My soul is a put up Put up with the madness My pleasure is scarr I'm control by own brain

Eternal
