

Faces under the ice

Krabathor

silence in the space
dying out of time
beating of two hearts
in a crystallic spasm
moan of the world
is hidden in the palms
closed by coolness
to depress

faces under the ice

cause in the pain
there is a rescue of the mankind
and cold deadening of feeling
is the symbol of the victory
but nobody can see
glass tears
in the faces under the ice

faces under the ice
