

Here is the West German Broadcasting Station with the news
Fifty nuclear power stations will be built in the West German Republic

In the next ten years

Each one can supply a city of millions with power

The North German Broadcasting Service with the news

In the whole world 355 nuclear powerstations are operational or
being built

According to plans of the nuclear lobby there will be 2000

At the turn of the century

Here is the Bayerische Broadcasting Service with the news

No other postwar technology

... even space travel, ...

Here is Radio Bremen, we bring you the news

The supplies of easily fissionable uranium

Needed as fuel for the reactors is as limited as the supplies of oil

The now known supplies of uranium is just sufficient

To operate the reactors already operational and under construction

For a period of 40 years
