

## Foe The Love

Krayzie Bone

Yeaah, we do it foe love  
We do it foe the love  
You know my love  
Foe the love of my music, music, my music (4x)

Sometimes before I fall asleep  
I roll me up some green leafes  
Smoke myself i little weed  
Tryna put my mind at ease  
Inhale, exhale, I feel  
So chill, so ill  
I Bone this instrumental  
Something simple then I write  
And I write about my life  
In these signs of the time  
As I try to keep my mind  
Of all the pain and all the crime  
Musics the only medicin I can find  
Hola music,music  
Tell the dj to let the record play  
Forget about the problems  
You had yesterday,yesterday  
And let the rythm sooth ya  
Its gon bod ya  
Run right through ya  
Just like buddah  
I take it slow then rough  
Aaahaaa,ahaa turn it up burn it up  
Give me a pen n pad  
I'll give that ass a funky-platinum song  
Blowin indo in the studio  
All night long

Yeaah, we do it foe love  
We do it foe the love  
You know my love  
Foe the love of my music, music, my music (4x)
