

I'm A Monster

Krayzie Bone

Yeah, what's up, nigga?
These niggas must have forgotten, man
We're the niggas started this shit!
Now I'm for real!
Fucked up, niggas, fuck!

Crazy Jackson swag classic,
Grand daddy swager
Everybody wanna ride my wagon
Swaging, never to put my lack on
To fifty million ... or so
No, imagine that I stack up
But I've never been one to brag
About my financial status.
All these rappers screaming, they're dead
At least all the same, they're all average
And everybody tell them to bite the master
Afraid of 'em all to swallow like...
Tell 'em hard to follow like Jackson
Might have been exactly
Ya'll need to stop with all of this madness
Boy, respect it now that you'll get it.
Call me father! Let me hear your thoughts, you get your...
Go ahead and use it, just pay taxes
... use it, and I'm not flattered!
... to break savage
Make no mistake on this slack
Good-good thinking now that I'm packing
Bitch, tell these girls I got acid.
Spit it to the rhythm and I get it like a magnum
When I finish, I send 'em to the dragon
To dungeon, but I'm back where I come from,
It won't happened, yeah
These niggas thinking you'll keep it with the flow
Niggas get the money... what you know?
I'm on... nigger better bow
On myself, on no hoes, go!

Hook:
The game made a beast out of me
I'm a monster!
The game made a beast out of me
I'm a monster!
The game made a beast out of me
I'm a monster!

Who the hell I get the most?
A nigga representing all sides of the coast
... but now I gotta hold it down and control it
Now, now, now!
No underrated, it's an understatement
I'll never ... till they come...
They gonna get the... and they gonna blaze it
Ain't it amazing?
Niggas sound like crazy
Somebody try to get down like lazy
I think it's time to get busy

And make a nigga wish the first to get clean
You think I'm gonna fall off?
Well, if I'm falling, I'm taking all ya
Cause the killer will be dead,
Thought I was dead
But the boss don't eat, believe we're going non-stop!
Afraid the ... that I burden them
Those haters on me I murder
You won't fade the black with close curtains
And everything I sing in the rap is for serving.
Nigga, we came in the game and we changed things
Made ways, main stream
Made everybody with a...
Even when they can't sing.
... the youngest niggas you probably ever heard off
And the verdict after they heard us
Was life! The niggas is murder!
Superb when I say my words
When it's my turn, I'mma hit it with the burner
To the scene of black Katrina fight like Ike and Tina Turner.
Never get 'em all shook
So I'mma keep coming on hill with that hook
You better be a woman up here with that look
Even coming with a... you get to.
I can go over days and days on how I'm amazing
In so many ways I can't even really explain how I sustain it!
My page is really insane, man!
Is losing the mind
Something is telling them kids might die
And I'm gonna take them to the other side once I apply!
Them niggas .. , ride, ride!
Project your bosses, up in this building
Show some losses, aim what I'm feeling
So I am enjoying for the killing!

Hook:

The game made a beast out of me
I'm a monster!
The game made a beast out of me
I'm a monster!
The game made a beast out of me
I'm a monster!
The game made a beast out of me
I'm a monster!
The game made a beast out of me
I'm a monster!
The game made a beast out of me
I'm a monster!
