

# Stand The Pain

Krayzie Bone

So far, so far

Can you stand the pain  
Can, you, stand, the, pain (2x)  
Can you stand the pain  
Stars, will, come, for, sure  
Can you stand the pain  
Can, you, stand, the, pain

I'm in the hood hanging, it's still murder, mayhem  
This place is god for say cause so many faces try to (?)  
So many to die to fame, cause they try to grind and stay up  
But what did the ravel rainstorm came without a weather  
Everything is a matter of me and keeping alive  
But it's a reason me surviving, strugglin' and strivin'  
Risin', climbin', ridin', blown away  
They come to find out my way, baby I don't play  
It's like a bad dream, when you believe you've had wings  
But wake you when the shaded summers, these ass springs  
I feel like you never gon' get to come up, and help these (?) seems, big  
(Man chinks?), grim  
Can't really imagine all the madness that the cash brings  
Now really haven't been distracted, mad brain  
It's really sky and I'm really rather to (not strength?)  
Wal through the shadow and through the battle, that ass pain

Can you stand the pain  
Can, you, stand, the, pain (2x)  
Can you stand the pain  
Stars, will, come, for, sure  
Can you stand the pain  
Can, you, stand, the, pain

I know, I know, all the days wanna be perfect  
But to make you understand it, can you stand the pain

So much pressure, so much pressure, owe me baby

Somebody come catch me cause I'm fallin'  
I'm cool though, I'm all one  
These critical times are making the physical bight is making me mention the  
Blight  
Tryna' stay relevant got me slavin' for two masters  
One of them mister Wise, but the other one I despise  
But I'm takin that honest strive, honestly swallowing all my pride  
This (?) follow the lie, cause it's really getting dark outside  
So I can chance and I can stand and I can handle pain  
But I hope the changes coming soon because I'm really train

Can you stand the pain  
Can, you, stand, the, pain (2x)  
Can you stand the pain  
Stars, will, come, for, sure  
Can you stand the pain  
Can, you, stand, the, pain

Now put your hands in the air if you're doin' bad

Or feelin sad, then go back to god and say 'you're the man'  
I'm in maneuver through all this maneuver, clean your hands  
I'm nigga flew all this foolish influence from the land  
So I need a way and a path I should walk and what's the plan  
Tell me if I should keep chasing to chasing chasing fast  
They say the world is passing away and it's chasing fast  
So just a little while longer and the pain will pass

Can you stand the pain  
Can, you, stand, the, pain (2x)  
Can you stand the pain  
Stars, will, come, for, sure  
Can you stand the pain  
Can, you, stand, the, pain, pain
