Black Sunrise

When nothing's left for us to say Substance leads me through the day All the green has turned to gray Like shadows fall from those who died Black Sunrise Darkened the Earth For jesus lives in every shot When i'm there I'll talk to god Now I can see things you cannot Like mirrors in eternity Black Sunrise Darkened the Earth Black Sunrise Over the Earth Why can I see the light no more? Everything became so much harder than before Like a swamp it pulls me further down god I know I've gone too far I am dying just to look inside
