

# Endorama

Kreator

This is the end of all life's suffering  
This is the end of all life's pain  
Fear, destruction, greed, exists no longer  
Nothings left now nothing can remain

It's getting closer  
Follow my friend  
Endorama is crushing you  
This the end  
Expect no mercy  
Just understand  
Endorama comes for you  
This is the end

This is the end of your false paradise  
This is the end of mankinds pride  
Masques of selfishness needed no longer  
All forgotten dark illusions died

It's getting closer  
Follow my friend  
Endorama is crushing you  
This the end  
Expect no mercy  
Just understand  
Endorama comes for you  
This is the end

As long as you're alive you've got to suffer  
Death will take you from this labyrinth  
Open up you'll see  
This life just can't be real  
Don't look back just let it all go  
Into eden or inferno

This is the end of all your struggling  
This is the end of this domain  
Hate, regression, lies, exist no longer  
As earth becomes the epitaph of cain

It's getting closer  
Follow my friend  
Endorama is crushing you  
This the end  
Expect no mercy  
Just understand  
Endorama comes for you  
This is the end
