

# Material World Paranoia

Kreator

dehumanization through industrialization  
bring fear to the masses of reincarnation  
manic frustration deterioration  
nature fights back for its own preservation

concrete coffin breeds lunacy  
cold steel skeleton  
desperation in the factory  
crank out oblivion

material world paranoia  
corporations dominate earth  
material world paranoia  
enslavement begins at birth

power's illusion brings global confusion  
a forgone conclusion of mind's evolution  
nature's destruction through massive production  
a blatant example of mindless construction

concrete coffin breeds lunacy  
cold steel skeleton  
desperation in the factory  
crank out oblivion

material world paranoia

don't dream about how life can be  
experience your dreams  
before this prefab culture wastes your life  
stay on the straight and narrow course  
material wealth is yours  
but the promise of a better future is a lie

the promise of a better future is nothing but a lie
