Kreator

what is yours  
it ain't mine  
become a capitalist and follow blind  
staring into empty eyes  
i can't see no truth behind those lies

i don't believe  
i don't agree  
i'm the one you fear forever

nonconformist

count the days  
that pass you by  
minds erased the individuals die  
conform into society  
and you become your own worst enemy

i don't believe  
i don't agree  
i'm the on you fear forever

nonconformist

they'll burn your dreams  
pollute your mind  
and you don't even see it  
do you want to see it

they'll take away  
all you have  
and you don't even see it  
do you want to see it
