

## Ripping Corpse

Kreator

He came from  
the east with weapons full of blood  
from newborn children  
now he's here in your town to kill you die at once  
until today you've lived your life without any sorrow  
at home you've got your child and wife  
but what will come tomorrow

await the death by the blade  
run before it's too late  
await the axe in your back  
as the ripping corpse attack

you begin to sweat you begin to cry  
as you watch this scene  
at first you see your children die  
you wish it was a dream  
he eats the heart of your wife  
and rips her cunt inside  
you know now it's your turn  
the others have already died

now he's close to you  
his eyes are cold and cruel  
fear is in your heart  
his might will rip you apart  
eternal terror, eternal horror  
eternal wickedness, eternal death  
life taking bloodrain  
neverending deathpain  
no one will care when you die
