

## Storming with Menace

Kreator

A black cloud hangs over your existence  
All of your thoughts dismal and gray  
The end of compassion lies in the distance  
Your future only falseness and dismay

Storming with menace  
Falsehood rules their brains  
Storming with menace  
Lies Hate and Dismay  
Storming with menace  
Hatred grows in me  
Storming with menace  
It rules them ,you will see

You are taught to storm through barricades  
Breaking down walls, leaving ruins behind  
Your victims cannot be sure of their future  
Confused and terrorised are their minds

Storming with menace  
Falsehood rules their brains  
Storming with menace  
Lies Hate and Dismay  
Storming with menace  
Hatred grows in me  
Storming with menace  
It rules them ,you will see

Storming with menace  
Falsehood rules their brains  
Storming with menace  
Lies Hate and Dismay  
Storming with menace  
Hatred grows in me  
Storming with menace  
It rules them ,you will see
