

Total Death

Kreator

Time has come the peace can't stand
Masters of the switch now rule the land
Push the switch and send out death
Politicians war pigs shit in head

Try to run or hide
From your death
You will burn and bleed
From your head

Total death!

No one escapes the burning flames
Flesh and skin decays from your face
Five megatons lie on every soul
Destroy the human race is their goal

Try to run or hide
From your death
You will burn and bleed
From your head

Total death!
