

Babycakes

Kreayshaw

Baby cakes you just don't know

Baby cakes you just don't know
How I I like it down low
And I just want you to know
That I think our love will grow
Boy take me step by step
Because I'm not something you own

Love that's here you left me lonely
But now that you're here you're right next to me so see
I can see you carefully when you look into me it's just like a dream so
Ma-ma-ma-make me scream I'm feeling your voice so talk to me
When I can't hear low can you speak it up if we go too slow can you speed it
up

And I just want you to know
That I think our love will grow
And I just want you to know
That I think our love will grow
And I just want you to know
That I think our love will grow
And I just want you to know
That I think our love will grow

Baby cakes you just don't know
How I I like it down low
And I just want you to know
That I think our love will grow
Boy take me step by step
Because I'm not something you own

I don't want you this way
It's just nice to say your name
Log on and I see your face
And it's so cute it's not the same
Light a blunt and pass it up
My favourite food I'll give it up
Thinking of what I wanna do
Only thinking about you
That boy he loves me so
He holds me tight he can't let go
In school he holds my books
He gives me love he is no crook
Say I hope he feels the same
I don't know which one of us would lane
'Cause the way I feel cannot be faked
'Cause you know you're my baby cakes

Baby cakes you just don't know
How I I like it down low
And I just want you to know
That I think our love will grow
Boy take me step by step
Because I'm not something you own

And I just want you to know

That I think our love will grow
And I just want you to know
That I think our love will grow
And I just want you to know
That I think our love will grow
And I just want you to know
That I think our love will grow
