

Dear John

Kreesha Turner

Yesterday I knew you loved me
Lately I can't really say for sure
Dear John
Something's wrong baby something's missing
And it seems that we just can't work this out
It's too far gone

Dear John, So long, farewell, Goodbye
(Goodbye)
I was gone before the ink had time to dry
(Ain't no lie)
Got so sick of always sounding like a skipping CD
Got so tired of all the talking never listening
Dear John, So long, farewell, Goodbye

It was sweet baby while it lasted
Had our time but I think we've passed it
I, I'm moving on
Now you say don't leave me lonely
Now you say I'm your one and only love
It's the same old song

Dear John, So long, farewell, Goodbye
(Goodbye)
I was gone before the ink had time to dry
(Ain't no lie)
Got so sick of always sounding like a skipping CD
Got so tired of all the talking never listening
Dear John, So long, farewell, Goodbye

Boy I don't need no cussing match
And I don't wanna shout
Just take the cap up off this pen and let the words flow out...
