

All She Wants To Do Is Dance

Kris Allen

They're pickin' up the prisoners and puttin' them in the pen
And all she wants to do is dance, dance, dance
Rebels been rebels since I don't know when
And all she wants to do is dance

Crazy people walkin' 'round with blood in their eyes
And all she wants to do is dance, dance, dance
Wild-eyed pistols wavers who ain't afraid to die
And all she wants to do is, all she wants to do is dance
And make romance

She can't feel the heat, 'comin off the street now
She wants to party, she wants to get down
And all she wants to do is, all she wants to do is dance
(Alright)

She can't feel the heat, 'comin off the street now
She wants to party, she wants to get down
And all she wants to do is, all she wants to do is dance
(Alright, c'mon now)
All she wants to do is dance
And make romance

She can't feel the heat, 'comin off the street now
She wants to party, she wants to get down
And all she wants to do is, all she wants to do is dance
