Beautiful Moon

Oh beautiful moon Sing me your song Make it slow And sweet If you can Oh beautiful moon Don't worry 'bout the clouds in the sky 'Cause they'll all Wash away With the time Oh This back porch singin' praises And when the smoke leaves I see your faces Oh beautiful moon When it's dark out tonight I thank God For givin' you your life Oh beautiful moon When you're all alone There's no stars Where they all go Oh The city lights they hide your graces And when the smoke leaves I'll see your faces Oh Oh This back porch singin' praises And when the smoke leaves I'll see your faces Oh beautiful moon Sing me your song Make it slow And sweet If you can
