

# Before We Come Undone

Kris Allen

You could break this silence with  
Words we wish we'd never said  
But I can hear it like a scream  
What's become of you and me?  
Are we still inside this night  
Or am I going crazy?

I'm just trying to understand  
Who I was, who I am  
But you are changing just the same  
So can you tell me who's to blame  
Could we put our weapons down  
Just to figure this out?

Now, pride is out the door  
Cause I know we can make it before (make it before)  
Make it before the sun breaks another day  
I wait 'til you say I'm the only one  
Before we come, before we come undone

If you say that it's too late  
Those are words my heart can't take  
And this night is out to kill  
And we let it, it will  
Could we both forgive somehow  
Cause I'm not letting you down

Now, pride is out the door  
Cause I know we can make it before (make it before)  
Make it before the sun breaks another day  
I wait 'til you say I'm the only one (I'm the only one)  
Before we come, before we come undone

Watch out, here we go  
There's no turning back you know  
We can't keep going round and round  
And round and round

So now pride is out the door  
Cause I know we can make it before (make it before)  
Make it before the sun breaks another day  
I wait 'til you say I'm the only one (I'm the only one)  
Before we come, before we come undone

Pride is out the door  
Cause I know we can make it before (make it before)  
Make it before the sun breaks another day  
I wait 'til you say I'm the only one (I'm the only one)  
Before we come, before we come undone

Cause I know we can make it before  
Make it before we come undone
