

Young Love

Kris Allen

I won't be the one that makes you question all your faith
And I won't be the one that turns a crooked smile straight
I will stand beside you until my days are done
It's funny how I knew what love was, so young

And it goes like...

And it goes like...

And I won't be the one that takes your wind out of your sail
And I won't be the one that tells you life is not a fairy tale
So tell me all your dreams and I'll make them come true
It's funny living life the way that lovers do, oh yeah

And it goes like

Everything little thing that you do makes me sing

Yeah, yeah, yeah

Everything little thing that you do makes me sing

Yeah, yeah, yeah

Everything little thing that you do makes me sing

Yeah, yeah, yeah

Everything little thing that you do makes me sing

Yeah, yeah, yeah

Sing yeah (yeah)

Sing yeah (yeah)

Sing yeah (yeah)

You make me wanna sing, yeah

You make me wanna sing, yeah

You make me wanna sing, yeah

You make me wanna sing, yeah yeah yeah
