

## Devil to Pay

Kris Kristofferson

Go on, girl, take your chances  
See how long you can go on from man to man  
I can read the lines between your stolen glances  
And I know it's time to fold this losing hand  
'cause you're drawn to the flame  
By the thrill and the shame  
Of the cheating game they taught you how to play  
But there's a price to that high lie you're living  
And you've still got the devil to pay

Join your friends, while you got 'em  
'cause you know you're getting older every day  
You can't wait to let 'em take you to the bottom  
And I'm getting tired of standing in your way  
But when you hit the ground

Don't go lookin' around  
For the pieces of the love you threw away  
That's just a part of the high cost of leaving  
And you've still got the devil to pay.

You've been flying so high for so long that you lied  
To yourself now, most of all  
Baby, all that you needed from me was the freedom to fall.

When your bright lights are gone  
You'll be standing alone  
And forsaken in the naked light of day  
And you'll know that it's all over but the dying  
And you've still got the devil to pay.
