## El Gavilan (The Hawk)

## **Kris Kristofferson**

You gotta make your own rules, child You gotta break your own chains The dreams that possess you Can blossom and bless you Or run you insane

The moment is yours now To lay on the line The past just don't matter Tomorrow won't mind

Lay down beside me Show me a sign Let me feel your spirit Running with mine

I don't deserve you I'm just a man But I swear I'll love you Just as hard as I can

Storm on the mountain Stars in the sky Running for glory Freedom to fly

Will you remember Way down the road Somebody loves you More Than you know
