

One for the Money

Kris Kristofferson

I've seen you standing there stunned in the spotlight
I've seen the sweat streak the pain on your face
'Cause you're caught like a clown in a circle of strangers
Who do you screw to get out of this place?

It's one for the money and too far to go
Three fingers of whiskey just for the soul
That lady you're pleasin' is hungry and cold
Don't look in her eyes, you'll see what you sold

Too many bodies in too many bars
Too many feelings are fallin' behind
'Cause you're easy to fool when you're lost in the stars
Shoot out that spotlight before you go blind

It's one for the money and too far to go
Three fingers of whiskey just for the soul
That lady you're pleasin' is hungry and cold
Don't look in her eyes, you'll see what you sold
