One for the Money

Kris Kristofferson

I've seen you standing there stunned in the spotlight
I've seen the sweat streak the pain on your face
'Cause you're caught like a clown in a circle of strangers
Who do you screw to get out of this place?

It's one for the money and too far to go Three fingers of whiskey just for the soul That lady you're pleasin' is hungry and cold Don't look in her eyes, you'll see what you sold

Too many bodies in too many bars Too many feelings are fallin' behind 'Cause you're easy to fool when you're lost in the stars Shoot out that spotlight before you go blind

It's one for the money and too far to go Three fingers of whiskey just for the soul That lady you're pleasin' is hungry and cold Don't look in her eyes, you'll see what you sold
