

# The Promise

Kris Kristofferson

You gave me back my soul again by showin' me  
the laughter and the wonder in your eyes  
saved me from the shuttered man I used to be  
opened up the windows of my life

And the happiness you've given me for lovin' you  
is sweeter love and deeper every day  
I can't stop the changes that you're growin' through  
or someone new from stealin' you away

So darlin' when it's time you can spread your wings  
and I'll set you free - to fly away - and it's ok  
cause darlin' time changes everything  
but it won't change me  
I love you - oh... I love you

Inside of me you'll always be my valentine  
I pray your freedom makes your dreams come through  
as long as there's a heartbeat in this soul of mine  
you'll know there's someone so in love with you

So darlin' when it's time you can spread your wings  
and I'll set you free - to fly away - and it's ok  
cause darlin' time changes everything  
but it won't change me  
I love you - oh... I love you
