

## Apocalyptic Victory

Krisiun

Come winds and fire  
Exalt death in endless flame  
Blasting thunder from bloody storm  
Grinding flesh thru acid winds  
Damned be the mankind empire  
Immolated thru eternity  
Drowned by the seas of Hell's abomination  
Bleeding forth for the tyrant age  
Oh gods of infernal war  
Strength us with the fury  
Let us make the holy preacher bleed  
Upon his golden altar  
Death and desolation remains  
Malevolent spells spawning worms  
On the crosses of fallen church  
Revealed unknown faith  
Leading us away from the false prophecies  
For the winds fire and hell  
We offer our pain and will  
Unholy massacre certain mutilation  
Now the earth drink it's blood  
Unleashed by the wrath of the ancient ones  
Thru the hatred storms of revelation  
Excessive pain and desolation  
Hallowed winds of death's prevail  
Riding throughout a wasted land  
Streams of rotten blood and flesh  
Turning existence into ashes  
Lifeless bodies lies spawned  
Apocalyptic victory rising from human decay
