## You're My Saving Grace...

## **Kristin Chenoweth**

I've been a witness to a raging fire That's taken my soul to the wire Then burned and then pushed right to the wall Now I've come to believe you can't lose them all

Your love is my saving grace My one salvation in this crazy place Heaven's in your arms, where I know I'm safe And your love is my saving grace

Always was leaving or just passing through Searching for one thing that's true Oh, those days are over; from now on it's you And your love's the one thing I can't stand to lose

Your love is my saving grace My one salvation in this crazy place Heaven's in your arms, where I know I'm safe And your love is my saving grace
