

Let's Play

Kristina Maria

There's so much that we can do
Have a play date in my room
And the rest is up to you baby
We can dress up if you'd like
What's your flavor, what's your type
Come on over for tonight
I'll bring your fantasies to life

Let's play
I'll let you wrestle me
You can win all day
I'll show you want it means to fool around
You'll see how much you want it now
Just come out and play

Baby if I tie you up
It don't mean I'll tie you down
I just like it to play it rough baby
If you wanna bring a friend
It's more than welcomed to join in
We will have triple times the fun
Yea this night has just begun

Let's play
I'll let you wrestle me
You can win all day
I'll show you want it means to fool around
You'll see how much you want it now
Just come out and play

Ooooooh oooooh, lets play

I can show you all the toys that you might like
My way
This Barbies got nothing on me tonight
Let's play
Anything you want
We'll make up all the rules
All day
We can find a game
Where no one has to lose

Let's play
I'll let you wrestle me
You can win all day
I'll show you want it means to fool around
You'll see how much you want it now
Just come out and play

Let's play
I'll let you wrestle me
(I'll let you wrestle me baby)
All day
I'll show you want it means to fool around
You'll see how much you want it now
Just come out and play

Let's play
