

# We Belong Together

Kristina Maria

My heart becomes weaker  
When I'm by myself  
I try to dig deeper  
But nothing makes sense  
Its getting harder to pretend  
Cause baby I feel like a victim  
Who fell for your sweetness  
And all of your mess  
Boy now that your gone  
You're all that I want  
Time to cut the nonsense  
We belong together

I can't take it anymore  
I want to kiss you  
From the bed to the floor baby,  
We belong together  
Baby  
Now until forever  
And I know that it's right  
I wanna take you home,  
And love you one night  
Baby  
Now until forever  
Baby  
We belong together

It's time to get honest  
To you and myself  
It's true that I want you  
And nobody else

Will you take me to the deep end?  
Will you love me till the end?  
So hurry lets get there  
Before it's to late

I can't take it anymore  
I want to kiss you  
From the bed to the floor baby,  
We belong together  
Baby  
Now until forever  
And I know that it's right  
I wanna take you home,  
And love you one night  
Baby  
Now until forever  
Baby  
We belong together

I can't take it anymore  
I want to kiss you  
From the bed to the floor baby,  
Baby we belong together

And I know that it's right

I wanna take you home  
And love you one night  
Baby  
Now until forever  
Baby  
We belong together  
Till the end
