

If Only You Knew

Kristine W.

If only you knew
It's so undeniable and baby
I've been tryin' to find the words to say
Just how much you mean to me
Why does it always seem to be the moment slips away

Every time that you're standing close
I wanna tell you you're the one that
I love and need the most
And if you'd just hold me, I'd never be lonely again, oh, no no

You're my every wish, you're my dream come true
My everything, if only you knew
I just can't help my heart, you're that someone who
Turns my world around, if only you knew

Just when I get my confidence
You look at me it's so intense, it takes my breath away
My heart beats fast, I feel so weak
That baby, I can hardly speak, what am I so afraid of?

Every time that you're next to me
There's no doubt in my mind
That it's right where you should be, oh
And if you'd just hold me, I'd never be lonely again, no

You're my every wish, you're my dream come true
My everything, if only you knew
I just can't help my heart, you're that someone who
Turns my world around, if only you knew
Oh, you're my dream, my only dream come true

If only you knew how I feel for you
When you walk into the room
If only you'd see, my whole world would change
'Cause I just know that you feel the same way
'Cause I don't [Incomprehensible] again

You're my every wish, you're my dream come true
My everything, if only you knew
I just can't help my heart, you're that someone who
Turns my world around, if only you knew

My every wish, my dream come true
My every, everything, if only you knew
I just can't help my heart, you're that someone who
You turn my world around, if only you knew

You're my every wish, you're my dream come true
My everything, if only you knew
I just can't help my heart, you're that someone who
Turns my world around, if only you knew
