

Stand In Love

Kristine W.

Stand in love, stand in love
Stand in love, stand in love

Fallin', I'm fallin' for you
I can feel myself starting to
Put you first and put me last
Just like in the past
I'm changin' how I walk and I talk
Tryin' to be the woman you want
I've done all those things before
No I can't do them anymore

'Cause I don't wanna fall in love
I want to stand in love, be who I am in love
Not find someone and lose myself
I'll give you my all in love
But I've got to stand in love
Not gonna change again for anyone
It hurts too much
I've got to stand in love

I'm ready to give you myself so completely
But I don't need anyone else to complete me
I wanna man who wants me by his side
Not one step behind
Love is supposed to make you more than you were
Not take things away, not close any doors
I've got my own dreams, too
I can't give them up for you, no, no, no, no

Wanna fall in love
I want to stand in love, be who I am in love
Not find someone and lose myself
I'll give you my all in love
But I've got to stand in love
Not gonna change again for anyone
No it hurts too much
I've got to stand in love

I'll give you my all in love
I've got to stand in love
Eye to eye, right by your side
That's all that I'm dreaming of
I want to stand in love with you
I want to stand in love with you
Won't you stand in love with me, too?
