If you could see him through my eyes
Big night at last you're gonna follow through
Don't sleep just play it smooth
You know they see right through
Fake smile, small talk
Not much longer now
To we can find some fun
And get away from everyone

Mama what can I do to show you
He's the one I'll never lose oohhh

If you could see him through my eyes
Then you could see that guy that sets me free
If you could hear his tender voice
Then you would find that he's the one for me

Phone calls, 2 a.m.
Keep it on the low
No more hanging after school
If they know what we're up to
Just wait
I know that it's hard for you
Hi baby, come around
By then we're all be cool

Papa what will it take to show you
He's the one I'll never lose oohhhh

If you could see him through my eyes
Then you could see that guy that sets me free
If you could hear his tender voice
Then you would find that he's the one for me

We okay
Will they say
We okay (Oh we okay)
Will they say, say, say, say, say

If you could see him through my eyes
Then you could see that guy that sets me free
If you could hear his tender voice
Then you would find that he's the one for me

If you could see him through my eyes
Then you could see that guy that sets me free
If you could hear his tender voice
Then you would find that he's the one for me
