Change

Kristinia DeBarge

If you could see him through my eyes Big night at last you're gonna follow through Don't sleep just play it smooth You know they see right through Fake smile, small talk Not much longer now To we can find some fun And get away from everyone

Mama what can I do to show you He's the one I'll never lose ooohhh

If you could see him through my eyes Then you could see that guy that sets me free If you could hear his tender voice Then you would find that he's the one for me

Phone calls, 2 a.m. Keep it on the low No more hanging after school If they know what we're up to Just wait I know that it's hard for you Hi baby, come around By then we're all be cool

Papa what will it take to show you He's the one I'll never lose oohhhh

If you could see him through my eyes Then you could see that guy that sets me free If you could hear his tender voice Then you would find that he's the one for me

We okay Will they say We okay (Oh we okay) Will they say, say, say, say, say

If you could see him through my eyes Then you could see that guy that sets me free If you could hear his tender voice Then you would find that he's the one for me

If you could see him through my eyes Then you could see that guy that sets me free If you could hear his tender voice Then you would find that he's the one for me
