

Cried Me A River

Kristinia DeBarge

I still remember
the day that we met
I hung onto every word you said
Asked me to surrender
And thats what I did
And you broke my heart again and again

So now you are sorry
Like you are in love
But where was your "sorry" when you broke it all off
I told myself never again
There aint no way Im lettin' you win
Because I keep remembering when you played me

I cried me a river
I cried me a sea
I cried me an ocean
I cried me a stream
(I'll cry out...)
Im fresh out of tear drops
You got me on E
Im out of emotion
Got nothing in me
And I woulda done anything in the world for you
I woulda done anything that you told me to
I cried me a river
I cried me a sea
And I aint got nothing left in me

You cant have my number
Dont wanna be friends
I dont care to see you now and then
Its not that Im bitter
Its just that Im done
My heart finally said enoughs enough

Just on case your not clear
And you think theres a chance
Theres no way your getting near
This or have me again

Until hell has frozen over
you need to understand
You'll ever get with me again

I cried me a river
I cried me a sea
I cried me an ocean
I cried me a stream
(I'll cry out...)
Im fresh out of tear drops
You got me on E
Im out of emotion
Got nothing in me
