

# Higher

Kristinia DeBarge

Everybody feel the vibe  
They moving side to side  
Music makes me feel alive, tonight tonight  
Grab a drink, enjoy the ride  
We can take the time and just let it go, let it go

In the sky I see a bright light  
Dance all night we're gonna get right  
And nobody gonna leave the floor till the morning, morning

Let's get higher and make you feel alright  
Leave the sky up, and make your body fly  
Let's get higher, higher tonight  
Let's get lost, can you feel the rhythm  
Going on tonight  
Let's get lost, don't you feel tonight  
We're gonna get real high  
let's get higher, higher tonight.  
Higher tonight.

Feeling good, so glad I came  
And we're dancing face to face  
Wanna take you far away, tonight tonight.  
Touching you and touching me,  
Feel the energy and just let it go, let it go.

It's my party and I love it  
Shots of Bucati having fun yeah  
Turning up yeah just make it louder  
way up high.

Let's get higher and make you feel alright  
Leave the sky up, and make your body fly  
Let's get higher, higher tonight  
Let's get lost, can you feel the rhythm  
Going on tonight  
Let's get lost, don't you feel tonight  
We're gonna get real high  
let's get higher, higher tonight.  
Higher tonight.

I need you baby, I gotta know  
Do you feel the same way, 'cause you're making me go  
A little crazy, I gotta know, know know
