

Nights In The City

Kristinia DeBarge

Boy, put the drink in the glass
Thirsty is up, fires stay on my...
Trynna be up and tell me our pass
Moving too slow, double take fast

Who got the club, turn up, up, up
Who got the club, turn up, up,
Who who got the club, turn up, up, up
Who who who got the club, turn up, up, up

We shot it down, we shot it down
Is the last call, so your drink sound on ground
Hey buddy in the in the club get loud, loud, loud
Let's keep wild

Nights in the city we like living on
We dance and we're drinking till we're gone
'Cause we love

Nights in the city we like living on
We dance and we're drinking till we're gone
'Cause we're one

Got the pink pink over plowing in my cup
Now I'm going crack crack, put your hands up
Got them flows, turn them on my back
Near one down, my things like that

Who got the club, turn up, up, up
Who got the club, turn up, up,
Who who got the club, turn up, up, up
Who who who got the club, turn up, up, up

We shot it down, we shot it down
Is the last call, so your drink sound on ground
Hey buddy in the in the club get loud, loud, loud
Let's keep wild

Nights in the city we like living on
We dance and we're drinking till we're gone
'Cause we love

Nights in the city we like living on
We dance and we're drinking till we're gone
'Cause we're one

Getting crey, can you feel it?
Be the spaking, to the sealing
Speak it's jumping, what a feeling
Everybody, let's keep wild

Spun the club up, shut the light down
Put the drinks up, turn all lights out
Turn all lights out, turn-turn all lights out
Turn all lights out, turn-turn all lights out

Spun the club up, shut the light down

Put the drinks up, turn all lights down
Turn all lights out, turn-turn all lights out
Turn all lights out, turn-turn all lights out

Nights in the city we like living on
We dance and we're drinking till we're gone
'Cause we love

Nights in the city we like living on
We dance and we're drinking till we're gone
'Cause we're one
Up, up up.
