Clean Break

Kristy Lee Cook

Stand up, shut up, gonna shake the dust off Get back up on that horse again Rediscover words like lover First things first gettin' rid of him I'm gonna paint my bedroom I might even paint the town

This time I'm gonna make a clean break This time I'm gonna start with a clean slate My bounce back, beating, all time healing Hearts gonna be okay 'Cause it's a clean break It's a clean break

This place, no trace, I'm gonna erase Everything that has to do His touch, his love, anything I think of That keeps me from something new I'm gonna take his memory I'm gonna burn it down

This time I'm gonna make a clean break This time I'm gonna start with a clean slate My bounce back, beating, all time healing Hearts gonna be okay 'Cause it's a clean break It's a clean break

Clean break I'm breakin' all down Break it right down the middle Then you break it way out Break it hard, break it fast Don't break it slow Hit him with a clean break then you go

This time I'm gonna make a clean break This time I'm gonna start with a clean slate My bounce back, beating, all time healing Hearts gonna be okay Oh, 'cause it's a clean break It's a clean break
