

# Hum Drum

Krizz Kaliko

TECH to the N-9-N-E  
I really hate when my lady ain't around (si)  
When she's away, I'm straight feelin' down  
Yes my euphoria button's off for sure,  
But when she comes through the door,  
(We on the floor) We on the floor  
Makin lovin so hot we so in tuned when we knock boots  
You say you wanna get freaky, baby I'll never stop you.  
I need (need) your lovin' and when it's away I'm CRUSHED!  
More of you is a must and never can love me enough.

She got my nose too wide open, I'm hopin'  
I can see the fire for the smokin'  
Baby steady ready for the pokin'  
Abstinence is revoltin'  
On Cloud 9's where I'm floatin so,  
Just stand in attention like super troopers  
We off the Oompa Loompa  
I wish this whole world was just the two of us  
What we gon' do with' us?  
Lovin is new to a few of us  
But if they hate you to be beautimous  
How much can they pay  
To lay with an angel get off in the uterus?  
Nada for grabs ever since I had us,  
See they keep talkin' it just don't matter (don't matter!)  
She love Kali, Baby, lay me down on the sheets, sweet half on the baby.  
Crazy, insatiable, grateful, I'm a stay faithful, too low without you is too  
painful.  
(Takes a puff)  
One hit and you'll forget about it, I'm numb  
My pitfall's my withdrawl from you when I'm hum drum.

Hum Drum means she ain't around, I feel like a loser  
She the only one if she wasn't I would choose her  
Lover girl make me feel super duper  
Baby have me holla like  
Hummina hummina hummina

Hum Drum she the reason for me breathin'  
So done every day she be leavin'  
She gimme love from the week to the weekend  
Baby have me holla like  
Hummina hummina hummina

Uhm uh, I be trippin off ya sorta like I kinda like ya,  
Give me ya lips so it'll turn into an overnighter,  
I can't lose you. I'm a lover, for you, I'm a fighter  
Stay with me we can make it right (make it riiiiiight),  
Hand over keys to ya,  
I'm on one knee for ya,  
I'll make a plead for ya,  
L-O-V-E momma  
Never second-guess the affection,  
Comin' in your direction,  
You'll be my comforter, I'll be your protection,  
Oh I think she like me,

Better yet, I know  
She be textin me messages endin in "X and O's"  
When I'm in it she let's it go,  
Reach her pinnacle and let's me know,  
Can't keep my tentacles off her I mean I can't let her go.  
She's a dime, gets inside my mind every time  
She know I love you when I'm from behind,  
So if you got the love bucks throwin'  
Watch what ya doin' the beautiful ones'll hurt you everytime leave ya Hum Drum.  
um.
