## **Too Wired to Sleep**

... The night is young... time to party down !!! Another day is over Another job well done The air is full of excitement And no one's goin' home Burnin' mesquite on the barbeque Sweet sensimilia's smoke Guitar playin' tequila moon light Give the fire a poke I'm too wired to sleep tonight I'm too wired Grab another bottle From an empty bus Meet you by the hotel pool Come on don't make a fuss! Sand on my feet... breeze in my face Shootin' stars in the night Singin' songs under the moonshine Keepin' the fire high!! I'm too wired to sleep tonight I'm too wired I'm too wired to sleep tonight I ain't tired
