

Dream

KRS-One

The God of your understanding, has chosen you and you've agreed
To be here in this space and time to do something, that only yo
u can do
Now I won't stand here to try and tell you what it is
But deep, inside yourself
As you take time to uncover, and ask yourself some vital questi
ons
Like - what is it that brings me peace, what is it that brings
me joy?
What do I love doing?
What am I willing to become highly skilled at doing?
What part can I play for the betterment of the society
And the world in which I want to live?
When you begin to ask yourself those real questions
And it doesn't have to be done in a formal way
It can be done just like we're speaking, right now
Ask yourself the question
Look at how you see yourself in just a year from now
And then go forward
And if you have children or even if you don't have children
Now begin to, look at your future beyond
The space and time that you are
Now visualize exactly, the way that you desire to live
Don't be afraid to, dream
