## **The Truth**

It's not natural If it goes against God It's not factual Her truth is not hard It's not natural If it goes against God It's not factual Gimme the truth!

Listen to the lyric as the negative is shrinkin It's shrinkin out your life when you decide to change your thinkin One of the first things we gotta switch around of course Is Jesus Christ, and him dying on the cross You're looking at the cross, surrounded in it's mystery With Jesus on the cross in a, total misery Now seperate Jesus from the cross so you can see The truth about the cross, and the cross's history The cross was created by the Roman government It's only purpose and use, is cap-i-tal punishment But Jesus Christ, was all about the revolution While the cross was used as Jesus Christ's execution See what if Jesus Christ, was hung upon a tree Upon every church wall, that's exactly what you'd see If Jesus Christ, was shot in the head with no respect We'd all have little gold guns around our neck If Jesus Christ was killed in electic chair, now get it You'd be knealing to the electric chair with Jesus, still in it You gaze upon the cross, and you see the execution You yell stop the violence but the cross you're still using

It's not natural If it goes against God It's not factual Her truth is not hard It's not natural If it goes against God It's not factual Gimme the truth!

So I say listen, listen, open up your third eye vision God is not down with religion Religion they be sellin it, listen up, God is intelligent Reading of the bible is irrelevant You gotta look within yourself, not a scripture KRS-One comes to rearrange the God picture If you sit and believe, you can acheive If you sit and accept, you don't know, what's correct or incorrect, take for instance Adam and Eve The first two people on the planet, or so you believe Their first time in heaven kids they had, Cain and Abel Huh, now let me show you why the story's unstable According to the story, according to what you believe There was only Cain, Abel, Adam, and Eve on the whole planet, now use your intellect and tell me, what did Cain and Abel do for sex? Upon the whole planet there was not another Could it be for sex, heh, they were looking at each other?

## **KRS-One**

Hold up! I thought the church wasn't into that But wait, still yet, there is another fact How did the world get populated? Now tell me if I'm wrong, but obviously Eve had it goin on Think for a minute, I know it gets notorious But yo G, check out the chorus

It's not natural If it goes against God It's not factual Her truth is not hard It's not natural If it goes against God It's not factual Gimme the truth!
