

Try

Krypteria

There is one thing you should know,
the way you need to go
It's dangerous indeed, your destiny you'll
meet

The prize youu will receive is
the answers to your needs
You are the one to break the seal

I can't turn back the hands of time
But hear me out, seek and ye shall find

Try, try and maybe you will find
find another place in time
Time to resurrect your mind, just try
Try, try and maybe you will see,
see a different reality
Be the best that you can be, you can be,
just try and see

There is one more liefе to save,
a heart still firm, still brave
It's worth it,
carry on and save the precious bond
The prize you will receive
is the answer to your needs
You are the one to break the seal

I can't turn back the hands of time
But hear me out, seek and ye shall find

Try, try and maybe you will find
find another place in time
Time to resurrect your mind, just try
Try, try and maybe you will see,
see a different reality
Be the best that you can be, you can be,
just try and see
