

# Collide

Krystal Meyers

Like a spotlight that breaks into the darkness  
Like an arrow that's racing to its target  
I got You in my sight  
I am fixed on You  
And I can hear You callin'  
Looking for me too!

Nothing's gonna stop me cuz I'm on a mission  
I'm gettin ready for a demolition

Collide  
Crash into me  
Collide  
I want to be  
Broken by You  
And made brand new  
Collide

In the aftermath of Your hurricane  
It won't be what I lost but what I stand to gain  
So bring Your storm to me  
Cuz I know when it's through  
The clouds will roll away  
And the sky will turn to blue

Nothing's gonna stop me I know what I'm doin'  
Make something beautiful come out of the ruins

Rearrange me  
Only You can save me
