

# Fire

Krystal Meyers

You make light from dark  
Illuminate my heart  
It started with a spark  
And now I'm consumed  
I know that it's your will  
So I'm gonna shine until  
I'm a city on a hill  
And they can see you

And know you  
And know you inside

You set me  
You lit me  
I'm on fire  
What a beautiful sight to see  
I'm on fire  
Until my light is burning bright  
I'm gonna lift your name and let this flame get higher  
Fire

Let your fire feed on all my disbelief  
Cause you are all I need  
You're contagious  
Like a blaze I can't contain  
It never fades away  
It's sunshine through the rain  
That's what your love is

And I know  
And I know inside

You set me  
You lit me  
I'm on fire  
What a beautiful sight to see  
I'm on fire  
Until my light is burning bright  
I'm gonna lift your name and let this flame get higher  
Fire

I wanna show 'em you're the only one  
Show 'em you're the only one  
You're the only reason why I'm on fire

You set me  
You lit me  
I'm on fire  
What a beautiful sight to see  
I'm on fire  
Until my light is burning bright  
I'm gonna lift your name and let this flame get higher
