

# Sing For Me

Krystal Meyers

I'm sitting on the roof again  
Staring at the stars  
Hope lies in the shadows  
I wonder where you are  
Are you listening for my voice  
I feel you so close yet you're far away

Sing for me one more song  
Play for me one more time  
I can feel you though you're not here  
Your voice whispers in the breeze and you are near

Through everything around me I find comfort in you  
Through trials and the heartache  
Your words, they speak the truth  
Lay me down to sleep now, you'll still be on my mind  
If I die before I wake, you'd still see through the lines

Sing for me one more song  
Play for me one more time  
I can feel you though you're not here  
Your voice whispers in the breeze and you are near  
To me

I've been ripped out  
Cut short  
Stopped within my tracks  
I've been tied down  
Turned 'round  
Learned to face the facts  
I was nothing  
Now something  
You're everything to me  
Don't go  
Please stay  
You're all that I need

Sing for me one more song  
Play for me one more time  
I can feel you though you're not here  
You whisper in the breeze and you are near

Sing for me one more song  
Play for me one more time  
I can feel you though you're not here  
You whisper in the breeze and you're near
