

## If Only

Kt Tunstall

Walking around in the days  
Out for days now  
Talking it up as amazing,  
A maze that I'm in.  
Looking at the stars for the answers  
But all that I found was silence and dirty ground

If only you could see me now  
If only you could hear me out  
If only it was only me now.

Listen just a little bit harder  
The hearts tell the truth  
Is it just a pistol on the edge  
To keep you moving  
You're looking like you're looking for something  
And now, you're surrounded by silence, whoa.

If only you could see me now  
If only you could hear me out  
If only it was only me now.

Silence, silence, silence.  
You're surrounded by  
Silence, silence, silence.  
You're surrounded by  
Silence, silence, silence.  
You're surrounded by  
Silence, silence, silence.

If only you could see me now  
If only you could hear me out  
If only it was only me now.

If only you could see me now  
If only you could hear me out  
If only it was only me now.  
If only it was only me now.  
If only it was only me now.
