

In This Body

Kt Tunstall

Something keeps happening to me
And I just realised it
This negative emotion
I keep it on the inside
Takes me out like a bullet
So god damn violently
I take the painkiller but never get the surgery

It's
So easy leaning on the past
But that's just all a story
And really starting to bore me
I want to shut my own mouth
How about starting to listen
Showing just a little understanding
Try to forget myself and
Maybe everything'll change

No - I am not immune
I can't turn away
Negative emotion turning into pain
In this body
And I wanna feel
And I wanna feel

Living this life in this body
With no negative emotion

I see this sickness in the world
I feel it through my fingers
And when that horror lingers
I want to shift reality
Is it really that complicated
Side-steppin' to another dimension
Don't you get the creeping sense that
Everything'll be the same

No - I am not immune
I can't turn away
Negative emotion turning into pain
In this body
And I wanna feel
And I wanna feel

Living this life in this body
With no negative emotion
